

We can change the world

Trust us, trust us,
We'll do magic things together.
Your smile, your smile,
Can turn problems into solutions.
Be yourself, no matter what they'll say.
Tonight, the stars we'll sing our revolution song.
We know that you are there,
Imagining a new beautiful smile.

We can change the world,
We can change the world together.

The truth is in us.
Let's going to show them,
That we'll live in peace.
All together...
(X2)

Away the wars,
The adventures just start with love.
Come on, hold my hand,
It will be okay.

Let's fight injustice,
Do you listen us to sing?

Can we start to be realist?
The world need us.
The strength of our dreams.
This will help us to win.

The truth is in us.

Let's going to show them,

That we'll live in peace.

All together...

(X2)
